PROFILE

Junior Data Analyst with a background in aviation pricing, revenue analytics and data-driven decision-making. At Ukraine International Airlines, analyzed market trends, pricing strategies, demand and route profitability to support business decisions. Completed a Data Analytics program with hands-on experience in SQL, Python, Power BI and data visualization, now looking to bring that combination of business understanding and analytical skill to a data-driven business or product team.

CAREER FOCUS

Data Analyst roles in a business or product team.

PORTFOLIO

Case studies with full write-ups (SQL, Python, Tableau) at svitlanamovchan.github.io/analyst.portfolio

EXPERIENCE

Oct 2019 – Sep 2021
Ukraine International Airlines
Kyiv, Ukraine

Pricing Manager

- Developed, implemented and monitored pricing strategies across the market to optimize revenue performance
- Conducted market analysis – market share, demand trends and the competitive landscape – to support data-driven pricing decisions
- Analyzed route profitability and identified opportunities to improve overall revenue and margins
- Collaborated with cross-functional teams (sales, revenue management, operations) to implement pricing changes and evaluate their impact

Nov 2017 – Sep 2019
Kiy Avia
Kyiv, Ukraine

Corporate Travel Agent

- Provided full-cycle corporate travel services for business clients, including employees of large IT companies (e.g. GlobalLogic)
- Booked and issued airline, train and bus tickets, hotel accommodation, transfers and additional travel services
- Maintained accurate booking and financial data in the 1C system
- Coordinated communication between clients, suppliers and the accounting department

Sep 2016 – Sep 2017
Uklon
Kyiv, Ukraine

Customer Service Manager

- Provided technical support to users, assisting with system-related issues and inquiries
- Monitored and processed customer ride orders in the system, ensuring accuracy and timely handling
- Resolved customer inquiries, misunderstandings and conflicts between passengers and drivers
